Professional Summary

A software engineer with entry-level experience specializing in web application development using frameworks such as Bootstrap and React. Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

Work History

Software Engineer   09/2022 to Current
Self Employed

- Designed and coded 5+ web pages from scratch
- Reviewed code, debugged problems and corrected issues
- Implemented Frameworks such as React and Bootstrap to build responsive & dynamic webpages
- Implemented APIs to communicate with other applications
- Updated old code bases to modern development standards, improving functionality.

Projects (Preview on Portfolio Page)   09/2022 to Current
Self Employed

- **GymRadar (In Progress):** CRUD app which allows users to pinpoint any gym nationwide, upload images, review and comment as well. Other users can view your review and post one themselves.
- **NuCampsite:** Responsive React based web application that displays info about fictional campsites and allows users post and look at other reviews.
- **NuCampsite Mobile:** Mobile version of NuCampsite made using React Native. Incorporates Drawer, Stack, and Tab navigation. Allows users to login, register and post reviews for each campsite. Added feature includes a "Favorite Campsites List".

Pharmacy Technician   08/2018 to Current
Walgreens – Towson, MD

- Mastered Pharmacy Software (Intercom Plus).
- 100% data entry accuracy during 3+ year tenure
- Calculated dosage, filled 300 prescriptions per day and prepared prescription labels with absolute accuracy.
- Answered over 60 incoming phone calls per day and addressed questions from customers and healthcare providers.
- Stocked, labeled and inventoried medication to keep accurate records.
- Trained employees to be able to navigate through pharmacy software and become valued members of the team.
